SSAA Members Liability Insurance

When you give permission to a SSAA Member to shoot on your property you know that they have agreed to abide by the Association's code of Ethical Hunting. In addition, their actions are covered by the Association's \$20 Million Public Liability Insurance. The policy protects financial members for legal negligence while on public or private property anywhere in Australia (excluding professional hunting). SSAA Insurance Brokers Pty Limited specializes in shooting and rural insurance policies and services the community generally, not just members of the SSAA.
