2024 Male Deer Season Ballot

Information sheet

Tasmanian Deerstalkers Inc have moved to a ballot system for the male deer season 2023 due to increased demand for bookings. Hunters may make multiple nominations over the period of the season.

The ballot opens on 7 January 2024 and closes COB 30 January 2024

As this is a ballot there are no guarantees that any nomination will be successful. Should we have unfilled booking slots at the end of the ballot these will be offered to hunters who may not be successful in obtaining a slot in the ballot.

Please refer to the maps on the website for general block locations. When permits are issued more details maps with corner GPS points are provided along with the permit.

Instructions:

- One form is to be completed per hunter.
- All nominations by hunters will be collated and where there are multiple requests a ballot will be drawn to allocate the block and time slot.
- Booking must be for the time slot specified. Nominations may not be for consecutive periods of time
- Once hunters have been advised of their allocation a permit application form and all supporting documentation needs to be emailed to us and the access fee paid before a permit will be issued.
